CONSUMPTION TAKES 350 PEOPLE DAILY

In the United States, and the deadly germs claim most victims in cities, due to the increased number of indoor workers and their lack of sunshine. Tubercular germs attack when the system is weakened from colds or sickness, overwork, worry, confining duties or any drain which has reduced the resistive forces of the body. The best physicians emphasize that during changing seasons our blood should be kept rich and pure and active by taking Scott's Emulsion after meals; it warms the body by enriching the blood—it peculiarly strengthens the lungs and upbuilds the resistive forces to avoid colds and prevent consumption. If you work indoors, tire easily, have weak lung tendencies, feel languid or nervous, get Scott's Emulsion at any drug store; it is the most strengthening food medicine known, and is free from alcohol, wines or any harmful drugs. Every druggist has it. Refuse the substitutes.

A Note of Discrimination.

The subtleties of the Paris furniture dealers, to whom American millionaires bid for ancient patterns, were illustrated in a case before a civil court. In this case the plaintiff was a Frenchman, M. Balbo, who at a sale bought for \$100 a mahogany desk which was described to him as an "empire" desk. It proved, however, to be of modern make, and M. Balbo sued the seller for giving a false trade description. The defense was illuminating. It was set out that there are three ways of describing such furniture: "Empire style" means modern furniture imitated from old models; "empire furniture" indicates there is a doubt as to its origin, and "empire epoque" is the only guaranty for authentic furniture of the empire period.—Indianapolis News.

ANNUAL SCHOOL MEETING TUESDAY

BOARD OF EDUCATION TO BE SELECTED BY VOTERS.

Every Effort Is Being Made to Put School Control In Hands of Worthy Persons.

Lodi, May 4—The annual school meeting will be held tomorrow at 7:30 p. m. and efforts are being made to have every parent and person who is interested in having as good a school as can be had in this community attend.

The building will be completed by the time school opens next fall, but the kind of school Lodi is to have and how good a school the village is to have depends on the selection of the member or members of the Board of Education, to be made at the annual meeting tomorrow. This is a matter that the voters will decide.

The next few years it is pointed out will be the critical period for the new school. If there is maintained a school that is not up to the standard from the start it will injure its reputation for years to come, and it is aimed to guard against this by the selection of members of the Board of Education who will carry out the policy adopted at the beginning of "having and maintaining a High School similar to that of Interlaken and Ovid."

"The tax-payers should consider these facts," declared one deeply interested in the new school: "The payment of the bonds and interest as they become due, the payment of the wages, incidentals, janitor, etc., will be about the same regardless of the standard of the school. If there is maintained a good school, which will attract outside students, the revenue secured in this manner, with the additions thus secured from the state, will materially lessen the tax rate."

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by the Linden Pharmacy.
